Subject: Inventory Committee

At the last Director's Forum, Dr. DeMaria asked me to pull together a committee with representation from each of the lab areas to address the need for a laboratory wide specimen inventory as well as a review process for discarding specimens.

Although I've listed most of the labs below with names that I've received so far, it's not necessary to have a different representative for each lab. Please forward me additional names to fill in the gaps and let me know if someone will cover more than one lab (for example, Linda, I have you down for HIV, but will you also cover all of bacteriology?)

Thanks,
Mariah
